Introducing Guest Panelist

RUSSELL T. RENDALL

Attorney, Labor and Employment Law

Attorney, Brennan Manna Diamond

Russell Rendall is an attorney with Brennan Manna & Diamond focused on business litigation and providing advice and counsel on a broad array of employment and labor matters.

How long do you need to (or should you plan to)
employ patient COVID screeners?

If a patient lists their primary language as Spanish, are we required to translate all forms that could be given to them?

Can someone verbally translate the form to the patient, or must the patient be provided with the physical form in Spanish?

Does anyone have a tuition support program/policy for staff?

We pay for CME and various certifications, but don't have a formal program for someone to go back to school to further their education related to their job. We get asked intermittently if the practice would provide tuition if the education is job related. Just wondering if anyone has a program like this and if so, would you be willing to share your policy.

Ask Me Anything

Our Local hospital would like to enter into co-management agreements with the surgeons in the area. They said we needed to create a business to run these agreements through.

What are the nuts and bolts of setting up co-management?

What kind of attorneys or consultants should I be seeking?
